

## An attractive solution perfectly fitted to cosmetics.

- Sleek, thin design conforms to product shape and does not detract from appearance.
- Tag is affixed securely to product without interfering with consumer viewing.
- Available in multiple colors to coordinate with product and/or packaging.
- Rigid plastic casing prevents pinching or bending of EAS label and does not interfere with fitting in existing displays.
- The non-adhesive, heat-activated collar attachment eliminates adhesive residue on product.
- Touch or proximity deactivated.
- A Sensormatic certified solution.

Heat activated collar and arc design of tag conform to product to fit securely.

EAS Label hidden inside molded plastic to protect it from bending and twisting.

Patent Pending

### COSMETIC SOLUTION TAG

Hard plastic tag casing with heat shrink collar prevents EAS label from being bent or twisted. Available in a variety of colors, and custom sizes for easy application.
