

Multiple solutions for a variety of jewelry.

- Attractive solutions with EAS label hidden in body of tag provide cost-effective protection for all types of jewelry.
- Custom shapes and configurations available to fit your needs.
- Each tag includes an EAS label and either a multi-color label or raised imprint for brand identification.
- Tags can be applied by manufacturer, at distribution center or at store level.
- Touch or proximity deactivated.
- Barcode labels may be ordered online through our Mabel Service Bureau.
- All Sensormatic certified solutions.

*Patent Pending

Self-locking Tag

Tri-Fold String Tag

Molded Cable Tag

Style# EAS-SL01

Molded hard plastic body prevents EAS label from being twisted. Thin, poly-coated stainless steel wire won't scratch product — allows for easy insertion into the tightest openings. Available in Continuous loop or 'Noose' Design.

Style# EAS-TS01

Quality paper and soft-elasticized string suggest look and feel suitable for more delicate and fine jewelry items. Tear-resistant paper encloses EAS label for extra strength and durability

Style# EAS-MC01

Molded of rigid plastic to prevent twisting, EAS label is set in recessed channel and enclosed with a UPC barcode label. Attached to product using zip tie method (shown).
