

Specialty solutions for jewelry.

- The Extended Hanger Display Card and the Cardboard Foldover with Embedded Circuit are attractive solutions for displaying jewelry with the EAS label concealed in the body of the card.
- Cards are available in a wide variety of custom colors, shapes, sizes and finishes and may also be produced with laminations such as velvet, mylar, suede or textured papers.
- Cards include a Sensormatic label, special paper laminations, and multi-color printing or hotstamping for brand identification.
- Touch or proximity deactivated.
- Barcode labels may be ordered online through our Mabel Service Bureau.
- All Sensormatic certified solutions.

Extended Hanger Display Card

Cardboard Foldover Card*

*Patent Pending

Extended Hanger Display Card

Style# EAS-EA01

Traditional earring card design with extended hanger space provides extra area to accommodate Sensormatic label, yet allows for fit on standard J-Bar displays. Combination rack hole/hanger design allows for display versatility.

Cardboard Foldover Card

Style# EAS-CF01

Traditional foldover design with security circuit placed in multi-layer board and secured by outer carding. Cards include Sensormatic circuit, multi-layer board insert to accommodate circuit and custom pre-printed foldover for brand identification.
