

Multiple solutions for a variety of sporting goods.

- Attractive solutions with EAS label hidden in body of tag provide cost-effective protection for a variety of sporting goods.
- Special designs hold EAS labels away from metal content of product to ensure proper deactivation.
- Each tag includes an EAS label and either a multi-color label or raised imprint for brand identification.
- Tags can be applied by manufacturer, at distribution center or at store level.
- Touch or proximity deactivated.
- Barcode labels may be ordered online through our Mabel Service Bureau.
- All Sensormatic certified solutions.

Self-locking Tag

Style# EAS-SLO1

Molded hard plastic body prevents EAS label from being twisted. Thin, poly-coated stainless steel wire won't scratch product — allows for easy insertion into the tightest openings. Available in Continuous loop or 'Noose' Design.

Adhesive Foam Tag

Style# EAS-AF01

Special foam design separates sensor from metal product to ensure proper deactivation. Custom shapes available to fit your needs.

Molded Cable Tag

Style# EAS-MC01

Molded of rigid plastic to prevent twisting, EAS label is set in recessed channel and enclosed with a UPC barcode label. Attached to product using zip tie method (shown).
