

## Multiple solutions for a variety of specialty hand tools.

- Durable solutions with EAS label hidden in body of tag provide cost-effective protection for all types of specialty hand tools.
- Special design holds EAS labels away from metal content of product to ensure proper deactivation.
- Each tag includes an EAS label and either a multi-color label or raised imprint for brand identification.
- Tags can be applied by manufacturer, at distribution center or at store level.
- Touch or proximity deactivated.
- Barcode labels may be ordered online through our Mabel Service Bureau.
- All Sensormatic certified solutions.

\*Patent Pending

Self-locking Tag

Style# EAS-SL01

Molded hard plastic body prevents EAS label from being twisted. Thin, poly-coated stainless steel wire won't scratch product — allows for easy insertion into the tightest openings. Available in Continuous loop or 'Noose' Design.

Adhesive Foam Tag

Style# EAS-AF01

Special foam design separates sensor from metal product to ensure proper deactivation. Custom shapes available to fit your needs.

Heat Activated Tag

Style# EAS-HA02

Hard plastic tag casing with built-in shrink collar (side or top mount design) prevents EAS label from being bent or twisted. Collars available in custom sizes for easy application.
